Succulent ball with soft-touch leaves

Description:

Whether as a design element in your office, your home or part of an arrangement - the artificial succulent ball from Europalms is a stylish accessory for any interior style.
The decorative ball has a diameter of about 20 cm. During its production, special attention was paid to a natural-looking color gradient of the twisted soft-touch leaves.
Due to the material EVA (ethylene vinyl acetate), you get a product with a deceptively real look, pleasant feel and high aging resistance. A suspension is already included in the delivery.
