EUROPALMS Mexican Cactus, artificial plant, green, 123cm

Multi-branched artificial cactus as a decorative object

Art. No.: 82801072

GTIN: 4026397636246

Description:

"MODERN LIVING" or classic decoration? These two requirements are not mutually exclusive for this classic. Because even with a combination of modern equipment or furnishing elements, it stands out positively.
Set accents!
The decorative cactus is made of high-quality plastic, whose natural color gradient hardly shows any difference to its natural model. The spines or thorns are made of soft material and therefore a harmless alternative to the original plant. By several closely fitting side arms he gets an impressive appearance, but still does not need too much space.
Included in the delivery is a basic gardener's pot covered with small stones, which gives the plant a stable stand when placed in a planter.
