With a total height of about 300 cm, it can't be overlooked and is perfect as the centerpiece of the palm tree decoration in your hotel, spa landscape or conservatory. To achieve the most lifelike appearance possible, real palm fiber material has been incorporated between the individual sections of the elaborately crafted artificial trunk. The bendable palm fronds are equipped with leaves made of textile fiber material.

The artificial plant is delivered in two parts: the trunk and the palm crown, which is pre-assembled on a shaft, only need to be put together and the fronds bent into shape.
