EUROLITE SMOKE FLUID -DSA- Effect, 25l smoke fluid

Very short-lasting fog effect with extreme density

Art. No.: 5170435C

GTIN: 4026397403671

Description:

Eurolite smoke fluid - Made in Germany
Trust is good, control is of course better - therefore we test our smoke fluids according to valid norms to meet the legal requirements, for example the REACH act. There have to be reasons why a product has enjoyed public confidence for more than two decades. There have to be reasons why in 20 years we have sold more than a million units of smoke fluid.
Quality and reliability are the decisive components for success. Our customers know they get an absolute high class product with Eurolite fluids. To be high class, a product has to do more than just function - it must guarantee not to be harmful to health. This may sound a bit too dramatic, but the truth is: unclean liquids can gravely affect the respiratory system. Moreover, easily inflammable liquids can cause serious damages. Many providers do not care about these dangers.
At Steinigke however, we test our fluids stringently. And in addition, we let independent bodies continuously check the liquids.
Therefore we can guarantee that our fluids are
-water-based
-odorless
-Glycerine-free
-non-toxic
-not harmful to health
-readily biodegradable
-non-inflammable.
Everyone using our smoke fluids places his trust in us. We pay it back with rigid controls of these liquids and both sides win.

Smoke that quickly vanishes into thin air!
Using fog on stages, in studios or on exhibitions, surely creates great effects. It may yet happen, that the smoke will not disintegrate but last and thus becomes annoying in the end. At this point it is the new DSA-fluid that is brought to the scene. In contrast to the common standard, the fog is very short-lived and by that can be used more precisely and trenchantly. A perfect alternative to the persistant wafts of mist. Sometimes less is more!

Features:

- Odorless
- Glycerine-free composition
- Non-toxic
- Not harmful to health
- Biodegradable according to OECD 301E/EEC 84/449 C3
- Non-flammable, no transport restrictions, no hazardous material
- Permanent quality control
- Proven quality
- Water-based fluid ready for use
- Available in various sizes
- Made in Germany
- For application areas such as: Video and photography; theater; product presentations and lectures

Technical specifications:

Container size:	25 l
Type of fluid:	Water-based fluid ready for use
Storage capacity:	25 l
Dimensions:	Width: 29 cm Depth: 25 cm Height: 45 cm
Weight:	26.50 kg
CAS NR.:	57-55-6
EG NR.:	200-338-0

Scope of delivery:

1 x fluid
