Description:

Peonies (lat. Paeonia), which originated in East Asia, have long since established a permanent place in our home gardens. Depending on the variety, they bloom from late spring to early summer. This artificial flower branch from Europalms offers an easy-care alternative for integrating the fascinating elegance of a peony into your living space as a decoration.
The artificial peony branch is equipped with a lush flower that shines in full splendor. It has been carefully modeled to convey the grace and abundance of a real peony blossom. This is particularly evident in the different shades of color of its delicate petals. In addition, two half-opened flower buds peek out between the vibrant green of the leaves, capturing the magic of blossoming.
